

In this bird photography workshop we will be visiting various nature reserves that are found on the east side of Sicily.

We will need to be at the Virtu Ferries port at 5:15am. Once we arrive, we shall find our coach bus and we shall start right away heading towards our first nature reserve.

The price includes entry fees to the nature reserves which are the highlights of the day. It also includes the Ferry ticket and Bus. Does not include lunch and/or Dinner or any tips to the driver.

It's important that one should have a telephoto lens in order to be able to have good results of birds as they might not be very close to us. If you have a macro lens, it's useful to get it as well as we might find several interesting insects.

Please note that this is nature so there is no guarantee that we will find the birds how we wish them.

If you have any questions please do not hesitate to ask or call me on 79081698
